

VectorStitch™ - Interactive Multimedia Training CD Maximizing Embroidery Results with DRAWings

The Ultimate Multimedia Training Course for DRAWings™ and CorelDRAW® 12

This course was commissioned by Digital Art Solutions and is taught by renowned Corel trainer, Craig Mertens. Craig walks you through everything from the basics to advanced uses of CorelDRAW 12 and DRAWings. The CD contains over 80 minutes of narrated interactive movies. This CD-based course is equivalent to a 2 day conventional classroom training course. This CD will help you to develop a core set of skills in both CorelDRAW 12 and DRAWings to produce the best possible embroidery results.

Over minutes of fully interactive multimedia movies

Note from the Author:

"Every DRAWings user must have a core understanding of creating and manipulating vector artwork. This CD gives any DRAWings user the essential skills to produce the best possible embroidery quality with this amazing new technology. This is a must have training product for anyone producing embroidery with DRAWings ."

Craig Mertens,
President, Digital Art Solutions, Tempe, AZ

General Information

VectorStitch - Maximizing Embroidery Results with DRAWings Interactive Multimedia Training CD is a tutorial developed by Digital Art Solutions presented by Craig Mertens, the developer of the Smart Designs Art System and Corel Certified Trainer. Craig is one of the industry's top CorelDRAW trainers and has been hosting seminars and bootcamps on CorelDRAW for the last 5 years. Craig approaches CorelDRAW and DRAWings from both a production and sales perspective. Learn marketing techniques for using DRAWings to prospect for new customers and build your embroidery business.

- Fully interactive multimedia movies compatible with Windows
- Learn at your own pace, start, stop and replay lessons
- Avoid time-consuming calls to tech support by accessing instant tutorials for most common problems
